582-2100 www.tulsatransit.org

Broken Arrow Service

The 508 B.A. Connection operates on a flexible Fixed Route. Passengers may catch the bus and travel from one bus stop to another along the fixed route without reservations. The fixed route is identified by the black lines on the map with arrows noting the direction of travel. The dotted lines on the map are also part of the fixed route, but the bus will not travel to those destinations on every trip. See the timetable for exact times when the bus will travel to those destinations (timing points 1b, 1c, 2b, 2c and 2d). If you have any questions or need assistance in planning your trip on the bus please call 582-2100.

20-Minute Window

Due to the flexible nature of this route, the times listed on the schedule are approximate. Although we hope to stay on schedule it is possible for the vehicle to arrive **10 minutes before or 10 minutes after the schedule time** to allow for route deviations.

Dial-a-Ride/Scheduled Route Deviations

The 508 B.A. Connection bus will also travel to any destination within the service area (shaded area on the map) for passengers who make advance reservations. Reservations are scheduled on a first-come, first-served basis and the reservations will be scheduled if the time is available. The timetable shows the times when the bus will be available to pick up or drop off passengers in the service area if a reservation is made in advance.

For Reservations or information, call 582-2100 between 8 a.m. and 5 p.m. weekdays. Reservations should be made by 5 p.m. the day before the service is needed. Same-day reservations may be accepted, but they must be made at least 2 hours in advance and not after 4 p.m. Please be advised that we can not guarantee we will be able to fulfill a request for a scheduled pick up. We are only operating one vehicle and the number of reserved trips is limited. Subscription service is available for passengers who need a regular trip on assigned days of the week. For example if you need a pick up every morning at a certain time, you can schedule that without needing to call every day.

For the scheduled pick ups, once the vehicle arrives within the "20 minute window" the vehicle will wait a **maximum of 2 minutes** for the customer to meet the vehicle at the pick up point. If you reside in an apartment complex the designated pick-up and drop-off location will be the leasing office. Be sure to plan your trip accordingly.

"No-Show" Policy for Scheduled Route Deviations

A "no show" occurs when the bus arrives for a scheduled pick up and the customer is not there within the 2-minute time limit. All future ongoing deviation reservations will be cancelled when the customer is a "no show." To avoid a "no show," the customer must phone the Call Center (582-2100) at least 2 hours before the scheduled trip to cancel their scheduled deviations. Customers charged with 3 "no shows" will not be allowed to schedule future deviations.
